MEMORANDUM FOR: General Counsel

25X1

SUBJECT: Notices Appearing in the [] Series

25X1

1. In a Staff review of obsolete regulatory issuances, it appeared that a number of notices in the [] series should be rescinded. Upon further consideration of the matter, however, the question arose as to whether an individual derived authority for execution of duty from a notice in this series announcing his assignment to a position.

25X1

2. It is the feeling of this Staff that the notices in the [] series are simply what they purport to be in their titles: announcements of assignments so that interested people in other offices of the Agency will know at a given time what particular individual is occupying a given position. Further, it would seem that no authority is extended to the individual by the mere announcement of his assignment. We feel, therefore, that these notices should bear expiration dates and be destroyed at the end of the stated period.

3. An expression of your opinion in this matter would be appreciated.

25X1

[]
Acting Chief
Regulations Control Staff
